Plant & Floral Décor Packages

Tropical & Flowering Plants

Green tropical plants are more than just décor. Plants will add humidity, and act as filters, removing pollutants and harmful particles from your office. Recent research studies have proven that you live happier and healthier with houseplants. Plants are nature's "eco-friendly" living air purifiers.

We can assess your space and provide recommendations for which plants will work best in your environment.

Fresh Floral Arrangements

Fresh flowers for your offices and reception areas are an instant mood booster, and set the tone for your business. We can provide weekly arrangements to make sure you're always making a great first impression.

Permanent Botanicals

Long-lasting arrangements communicate an image of success and provide a finishing touch to any room. A seasonal change-out ensures a fresh look throughout the year.
